

CAKE CARE

BAKE WORKS
artisan cake studio

Pick up and carry the cake box from the bottom only. Never from the top or sides.

Keep the cake level at all times - during transport, refrigeration and display.

Place the cake in an air conditioned vehicle - ideally in the passenger footwell, away from loose objects. Drive slowly avoiding sudden stops and turns.

Store the cake in the box in a refrigerator. Keep away from direct sunlight, moisture and heat when not in the fridge.

Use a sturdy surface to present and cut the cake.

Cutting the cake is easier and neater when it is still cold. Remove all cake decorations before cutting and serving.

The cake is best enjoyed at room temperature. If you cut it straight from the fridge, wait a few minutes for the slices to come to room temperature.

Store leftover cake in the refrigerator (up to 4 days) or in the freezer (up to 3 months) in an airtight container.
